

International mail service availability chart (Updated on November 27)

How to read the table

The countries/territories whose status has changed since the announcement on November 24, 2020 are indicated in yellow and underlined.

For information on the delivery delays and other precautions, please see "Delays in Japan" and "Precautions concerning delivery and other matters after mail items arrive at the destination countries and territories."

✓ : Acceptable, *: Acceptable for some items or to some regions (see Restrictions), X : Not acceptable, - : No service

International ePacket is included in Air Letter-post items.

International ePacket Light is not acceptable because it is included in SAL Letter-post items.

Because the global reduction of flights continues and the number of outbound mail items from Japan is expected to increase toward the end of the year, please note in advance that considerable delivery delays are expected for accepted outbound mail items.

How to read the table

The countries/territories whose status has changed since the announcement on November 24, 2020 are indicated in yellow and underlined.

For information on the delivery delays and other precautions, please see "Delays in Japan" and "Precautions concerning delivery and other matters after mail items arrive at the destination countries and territories."

✓ : Acceptable, * : Acceptable for some items or to some regions (see Restrictions), X : Not acceptable, - : No service

International ePacket is included in Air Letter-post items.

International ePacket Light is not acceptable because it is included in SAL Letter-post items.

Because the global reduction of flights continues and the number of outbound mail items from Japan is expected to increase toward the end of the year, please note in advance that considerable delivery delays are expected for accepted outbound mail items.
